### AUTHORIZATION FOR AND RELEASE OF MEDICAL PHOTOGRAPHS/SLIDES/ VIDEOTAPES

Aesthetic treatments are a visually oriented specialty. As such, it is necessary that medical photographs be taken before, during, and after a procedure or treatment. Similar to other imaging techniques like x-rays or CT scans, this allows for proper planning before procedures and follow up evaluation afterward. Photographs are required only for the body part in question. This means that unless the planned treatment is on the face or head itself, the images typically do not include the face. Consent is required to take such images. Additionally, patients may consent to release these medical photographs/slides, and videotapes for a stated purpose such as for use in instructional, educational, or promotional materials. These materials are very important to ensure continued understanding of the treatments available to all patients. Please read carefully the information contained in both sections below and provide your consent where applicable. A signature in section 1 is required to receive your care at Thrive Wellness & Aesthetics. A signature in section 2, while encouraged, is optional.
